

## **Religion of the Rose**

The Religion of the Rose Group was founded on 8th, March 2010 in Thailand by Michael. The aim of the Religion of the Rose is to unite all true believers and gather the lost 10 tribes of Israel together into a spiritual community of love, understanding and active work. For this purpose Societies of the Rose will be founded worldwide that spread the philosophical principles of the Roserians and recruit new members from all countries, all races and all colors. The Roserians are equal friends walking in the footsteps of Yeshua and follow all commandments given by GOD to Moses at Mt. Horeb.

The Religion of the Rose is based on the earliest holy writings and deduces two commandments from the teachings of our LORD:

1. **Love your GOD above all else**
2. **Love your neighbor as yourself**

In addition the Religion of the Rose supports four philosophical principles that lead to a new life in a community of love and active help:

1. **Despise Death and Satan**
2. **Despise Gold**
3. **Despise Riches**
4. **Despise worldly Honors**

These four principles are the base of all Societies of the Rose which means a new way of life in the Light for all Roserians. Death will be replaced with the Love of GOD and eternal life, the materialism and excess consumption with a medium-sized lifestyle in a community of friends, the greed and luxuries with contentment and love for the needy, the self-righteousness and egoism with active, loving work in righteous projects, so that a pure heart of love and understanding is created in which GOD establishes a new bond with every Roserian. This pure heart shows itself in the daily, loving support of the needy, the assistance and help in the Societies of the Rose worldwide and leads finally to a positive, permanent change in the social structures of all countries on earth.

**If the Rose blossoms in the whole world, there will be no war,  
hatred or hunger anymore!**

## Societies of the Rose

Societies of the Rose are the basic micro communities of the Roserians. In these communities the members will learn to act as a unit in love, understanding and support for themselves and their neighbors.

A Society of the Rose contains as many as 50 members who will come together every Thursday for the Holy Day of the Religion of the Rose and will use donated funds to support righteous projects within their community. Instead of donating funds to organizations which will not disclose the use of it or do not allow the donor to select the projects to be used for the donations, Roserians will pool their funds together, select righteous projects and accompany them throughout the whole donation period guaranteeing a successful use of the funds.

Small units are more innovative than big groups. They can follow common goals easier and will stay autonomic from outside interference. The headquarters of the Religion of the Rose will assist each Society but will not control or dominate them. The Roserians within each community will work together to create a new life of understanding and support by following the two commandments and the four philosophies of the Religion of the Rose.

The goal is to build a strong society which will support its members, guide them to a new way of life without materialism and greed, show mercy and assistance to needy people, neighbors and animals, live the principle of "Ownership of friends" and place the word of GOD in the hearts for their daily life.

The Societies of the Rose accept all nationalities or races and are tolerant towards all people. They operate and can be founded worldwide by dedicated persons who wish to follow the Religion of the Rose and change their materialistic way of life. They will be mentioned with photograph and story on the website of the Religion of the Rose to invite further members to join them.

The benefits of the Societies of the Rose are:

- a new way of life through love and understanding,
- member support in cases of problems like unemployment, sickness or accidents,
- no fears for the future,
- flexible work environment through exchange with other communities,
- better income,

- sharing of community resources,
- staying away from materialism and its results like greed
- daily happiness through support of needy people
- nature and animal protection
- use of alternative energies
- building a strong religious base through 2 commandments
- realizing own dreams within a supporting community
- secure active retirement
- creation of a mid-sized income for all members so avoiding problems and poverty
- active designing the future of this world

**Change this world through creation of a new future with millions of Societies of the Rose who act in love and understanding instead of greed and materialistic deeds.**

**Be part of the Religion of the Rose and join a Society of the Rose through the Triple Grace Interactive Faith Movement™.**
